FEATURED COCKTAIL

-18-

Smoke + Rocks

johnnie walker black | laphroig-rinse | lemon | honey | large rock

Johnnie Walker has been a house-hold name for scotch drinkers since it's inception back in 1806. For spring, we feature it's most popular expression in a smooth, rich, smoky concoction that both highlights the complexities found in scotch and mellows out the harsh "afterburn" that might dissuade the casual imbiber. Laphroig is peated scotch known for it's smokey taste. Often associated with a campfire, Laphroig has long been a staple of most scotch shelves around the world as a "man's scotch." Here we feature both in a refreshing twist on an oft-forgotten base for cocktails.
